

Membership Pricing Program

Our Y is committed to serving the entire community, regardless of financial means and therefore offers a membership structure that best meets your needs. Our Membership Pricing Program is an income based fee structure where your membership dues are based on your household income. If you wish to take advantage of our discounted pricing program, you simply need to provide us with a copy of your most recent tax return stating your *household income*. We DO NOT keep copies of your income verification and all information is strictly confidential.
